

## 2.Array reverse:

```
#include<stdio.h>

int main ()
{
    int n,num[5],i;
    printf("enter the value of n : ");
    scanf("%d",&n);
    printf("enter array elements :");
    for(i=0;i<n;i++){
        scanf("%d",&num[i]);
    }
    printf("reverse array : \n");
    for(i=n-1;i>=0;i--){
        printf("%d\n",num[i]);
    }
    return 0;
}
```
